

2010 Annual Support & Maintenance

Practice Builder Annual Support and Maintenance will again be due in June. Many software enhancements and new features to improve your office efficiency, productivity and profitability are routinely added with downloads at approximately 90 day intervals. The payment of your Annual Support and Maintenance charge is all that is required to continuing receiving the newest versions of Practice Builder.

This annual charge supports our efforts to provide five benefits: • Software enhancements • Continuous text updates • E-mail support and FAQ • Toll free telephone technical support • Web based support including document and update downloads.

Meanwhile, we continue work on a new upgraded version, built upon a completely new architecture. This new system will require greater resources than you may be currently using but not very different from system upgrades you are experiencing with other programs. The Minimum System Requirements for the newest version will be: Windows XP, Vista or Windows 7; Microsoft Word 2003 or later; Microsoft Outlook 2003 or later, Memory 1 GB RAM.

Complete the form below and fax the form back to us.
